4. Training:

The training on Friday is NOT obligatory, but highly recommended. We will publish a map/sequence of the stages recommended for training on site and via Komoot and advise you to consider this recommendation!

5. Start of the race

In the Event-Area below the castle Nauders the start is in starting blocks of max. 6 participants in 3 minute intervals! Please keep enough distance and be on time for your starting block at the event area. **The order and starting time is binding.** That means those who do not appear at the start at their starting time must start again at the time specified by the race organization!

The starting order for the prologue is determined by the race management.

On Saturday (29.08.) the start will be in order of the results of the prologue. For the start on Sunday (30.08.) the start will be according to the intermediate result of Saturday.

6. Transponder:

Attach the transponder with the bracelet to your right wrist. **IMPORTANT:**In case of GPS watches on the wrist, wear the watch on the left wrist! When the transponder is returned, the deposit will be returned.

7. Startnummer:

Mount visibly on the handlebars.

8. Helmets:

Helmets are compulsory on the entire route, also on the transfers between the stages! Violations against these regulations will be punished with a time penalty of five minutes!

9. Protectors etc.:

On the timed stages there is a DUTY to carry: Knee pads, full visor helmet and back protector or appropriate backpack with back protector. The wearing of elbow pads and gloves is strongly recommended on all stages.

10. Signposting of the route:

The route with its stages and transfers is continuously signposted in the order of the stages. Do NOT leave this signposted route; violations will be punished with a time penalty of five minutes. The stages themselves are signposted, but are not marked on both sides by a tape at every point. It is important to keep your bearings even on the timed stages!

11. Prologue:

The prologue is obligatory, the time of the prologue is included as a stage in the overall ranking. In the DUO teams, BOTH riders must start in the prologue (the slower time in the team is evaluated here).

12. Lifftickets/Lift:

All participants receive lift tickets for the three days of the event. Lost lift tickets can NOT be replaced! Also in this case a distance of 1m is required when waiting in line!

13. Procedure at the launch gate:

The start of the Stages is regulated by the so-called "gate directors". Here too, there is a distance obligation of 1m, which is checked by the gate director! It is mandatory to follow the starting distance. Waiting riders have to stay BACK to the Gate Director, otherwise the timekeeping will be triggered (contactless)! Whoever crosses the finish line will continue as quickly as possible. Group gatherings are to be avoided here as well.

14. Timing:

The personal transponder stores all data of the individual sections. The transponder is already switched on after output by SPORTident! After the last stage of the respective day the transponder must be read out. For this a passage at the finish at the SPORTident tent is NECESSARY. Without this passage and the reading of the transponder no scoring can take place.

15. Catering:

The following catering is included in the participation fee: Lunch snack on Saturday, 28.08.
As a joint dinner is not possible due to Corona regulations, all participants will receive a refund of 15,- €.

16. Sanitary facilities

The sanitary facilities can only be released for simultaneous use by one person at a time. If this is not guaranteed, the guest has to wait in front of the outdoor sanitary area until he is able to use the facilities! For additional hygiene, disinfectant dispensers are provided in the sanitary area. Shower facilities are not available at the event site!

16. Emergency Service:

There are several bike shops in Reschen and Nauders, which can help with defects within their possibilities.

17. SCHEDULE:
